THE STANDARDS OF PERFORMANCE

JUNIOR HUNTER

A **Junior Hunting Dog** must show a keen desire to hunt, be bold and independent, have a fast, yet attractive, manner of hunting, and demonstrate not only intelligence in seeking objectives, but also the ability to find game. A Junior Hunting Dog must establish point on at least fifty (50) percent of the birds it encounters, but no additional credit shall be given for steadiness to wing and shot. If the handler is within reasonable gun range of a bird which has been flushed after a point, a blank cartridge must be fired by the handler. Junior hunting dogs must hold point until the handler gets within normal gunshot range. This requirement should be tempered by practical considerations such as the dog's distance from the handler when it finds a bird. Junior Hunting Dogs must also show reasonable obedience to their handler's commands.

SENIOR HUNTER

A **Senior Hunting Dog** must show all of the attributes of a Junior Hunting Dog. In addition, the Senior Hunting dog must be steady to wing on all pointed birds and must remain in position until the shot or they are released. A Senior Hunting Dog must retrieve. All birds that are pointed by the Senior dog in a bird field must be shot where safety allows. If gunning is being done on course, all birds pointed on course must be shot where safety allows. A legitimate attempt to retrieve all downed birds must be made. Conditions such as the type of cover where the bird landed, the terrain, and the condition of the downed bird, sometimes make a retrieve impossible and this should not reflect negatively on the score of the Senior dog. Whenever it encounters its brace mate on point, it must honor. A dog that steals its brace mate's point cannot receive a Qualifying score.

MASTER HUNTER

A **Master Hunting Dog** must positively demonstrate its steadiness to wing and shot. All birds that are pointed by the Master dog in a bird field must be shot where safety allows. If gunning is being done on course, all birds pointed on course must be shot where safety allows. Gunning must be done by Official Guns only. A legitimate attempt to retrieve all downed birds must be made. Conditions such as the type of cover, where the birds landed, the terrain, and the condition of the downed bird, sometimes make a retrieve impossible and this should not reflect negatively on the score of the Master dog. All killed birds must be retrieved promptly, tenderly and absolutely to hand. The handler shall not command or signal the dog to retrieve until positive steadiness has been demonstrated.
